## Coming Soon: CEI Israel Curriculum

- The Story of the Jewish People in the Land of Israel is a modular curriculum aligned with state social studies standards that situates Jewish history in the larger context of Middle Eastern and World History. Students will understand how geography and the development of religious, cultural, and political movements from ancient to modern times have created a complex society in Israel. Lessons utilize a wide-range of primary sources, secondary sources, videos, and maps.

## CEI Literature Project

- The CAMERA Education Institute offers a curated list of recommended books for students, encompassing both fiction and nonfiction which is regularly updated. These resources provide students a deeper understanding of Israeli and Jewish history.
